

**JOHNSON'S® is looking for babies (ages 3 to 36 months)  
and their parents to be featured on TV, in print, and more!**

We know that parents are busier than ever with work, caring for family members, volunteering, and running errands -- it's easy to get caught up in the doing and forget to treasure the everyday joy children bring to our lives.

JOHNSON'S® wants to hear about the little everyday moments that you experience with your baby or young children that bring joy to your home.

Do you take the time to enjoy a daily activity like splashing around during bath time or treasure the times when your little one puckers up for a kiss?

Submit several recent photos of you and your baby along with a brief description of the moments of joy you share with your family to [submissions@johnsonsbabybook.com](mailto:submissions@johnsonsbabybook.com).

**If your family is chosen:**

Award winning director and photographer Michael Franzini (<http://michaelfranzinibabyphotography.com>, [www.x-up.com](http://www.x-up.com)) and his team will spend about half a day with you and your family taking professional photographs behalf of JOHNSON'S®.

These photos and your story could be featured on TV, in print publications, and in a coffee table book.

Our team will be in contact once we receive your submissions.

THANKS!
